Objective

I am a passionate Full-Stack Web Developer with experience in building responsive and dynamic web applications using JavaScript, React.js, Bootstrap, Node.js, Express.js, and MongoDB. I have successfully completed major full-stack projects including **QuizCraft**, **Tera Marketing**, and a secure **Authentication System**, showcasing my ability to build scalable frontends and robust backend solutions with a focus on performance, security, and clean API integration.

Technical Skills

- ✓ **Frontend Development:** HTML, CSS, JavaScript, React.js, Bootstrap
- ✓ **Backend Development:** Node.js, Express.js
- ✓ **Database Management:** MongoDB, MySQL
- ✓ **Version Control:** Git, GitHub
- ✓ **Other Tools:** Firebase Authentication, jsPDF, API Integration

Education and Training

- ✓ **BS Computer Science** – University of Peshawar
- ✓ **FSC Pre-Engineering** – The City Collage Peshawar
- ✓ **Metric** – Al Qasim Public School

Projects

I have successfully completed several real-world projects, including:

QuizCraft – Intelligent Quiz Generation and Paper Creation System: A full-stack application that streamlines quiz creation for educators. It features a React.js + Bootstrap frontend and a secure backend built with Node.js, Express.js, and MongoDB. It includes random/custom quiz generation, Firebase Authentication, and jsPDF for PDF exports.

Authentication System: A secure backend authentication service implementing JWT-based login, registration, password hashing with bcrypt, and a complete forgot/reset password flow. It includes route protection middleware and environment-based configuration using dotenv.

Tera Marketing: This is website for marketing Company which is still under working ,It uses route-based access control and Mongoose for schema design and validation.

Role-Based Access Control (RBAC). Authenticated users can create, update, read, and delete blog posts based on their assigned roles (`admin`, `editor`, `viewer`). Features include JWT authentication, encrypted passwords, and modular controllers for maintainability.

Future Directives / Career Goals

- ✓ Aspire to grow as a developer by mastering both frontend and backend technologies.
- ✓ Aim to lead innovative projects that create impactful user experiences and drive business success.
- ✓ Committed to continuous learning and staying updated with industry trends.

Soft Skills

- ✓ Problem Solving
- ✓ Team Collaboration
- ✓ Adaptability
- ✓ Time Management
